

MAFIN 09

First International Workshop on

Managing financial instability in capitalistic economies

Reykjavik University, Iceland
September 3rd- 5th, 2009

What went wrong?

The Reykjavik Manifesto

- Now it is a wiki <http://reykjavikmanifesto.wikidot.com> made by the contributions of the workshop Scientific Committee.
- A final final round table should draft a document aimed to propose a new research agenda and hopefully new foundations for the discipline
- "We must make sure this never happens again"
